## Unique Swearing-In Held After Election

L to R: Tribal Vice-President Matt Putnam, Tribal Council Member Marv “Buttons” Malone, President Shannon Holsey, Tribal Council Member Sterling Schreiber, Tribal Council Member Jeremy Mohawk, and Chief Judge Travis Miller (more about Chief Judge Miller below).

On October 18, 2018 the Stockbridge-Munsee Community held its annual swearing-in for newly elected Tribal Council Members. What made the event unique this year was because first, President Shannon Holsey swore in the new Chief Judge Travis Miller, and then Chief Judge Miller swore in the elected Tribal Council Members. The newly elected Tribal Council Members are Vice President Matt Putnam, Tribal Council Member Marv “Buttons” Malone, Tribal Council Member Jeremy Mohawk, Tribal Council

Member Sterling Schreiber, and Tribal Council Member Craig Kroening Jr. Each of the Tribal Council Members was able to address the community who attended the swear in with a brief speech. Following their speeches were congratulations and handshakes from the community members. “Being a Tribal Council Member is a challenging role, and an important role as we lead our nation and prepare for the next generation,” President Shannon Holsey stated in an email she sent out on October 18, 2018.

## Travis Miller Elected to Chief Judge

Travis Miller is an enrolled member of the Stockbridge-Munsee Community and a descendent of the Crow Creek

Sioux Tribe—the son of Robert “Bob” Miller and Sherri Malone. His paternal grandparents are the late William and Lenore Miller; and his maternal grandparents are Sheldon and Joann Malone. He has four children: Biids Miller, Eeshulaandew Miller, Asdzanii Miller, and Nidibah Miller.

Travis was raised on the reservation his entire life and remained there until his mid-twenties. Some of his past employment with the tribe includes being a slot technician and later a surveillance officer at Mohican North Star Casino. In 2010, Travis left to attend college at the Institute of American Indian

## Fire Safety Open House

By Brett Miller – Mohican News Reporter

The 14<sup>th</sup> Annual Crime Prevention, and Fire Safety Open House and Parade was held recently at the Public Safety Building. Food, Games, and Prizes were available for the entire community to enjoy. A Smokehouse was there to demonstrate an actual fire. Safety and Awareness booths were set up to educate you about drugs, safe sleep, family services, and

hunter education.

Ham & cheese, or beef & cheese sandwiches and chips were on the menu. You were able to add toppings if you wanted such as lettuce, tomatoes, onions, pickles, and mustard. If you were wanting something sweet cookies were available. A cold drink of water or soda was very refreshing and complimented the food nicely. All the food filled the bellies of the **Safety continued on page Five:**

**Fruit & Vegetable of the Month**  
*Cranberries*

▶ DUE TO THEIR SHARP AND SOUR TASTE, CRANBERRIES ARE RARELY EATEN RAW

▶ THE MOST COMMON FORM OF CONSUMPTION IS IN JUICE, THIS IS OFTEN BLENDED WITH OTHER FRUITS

▶ THEY ARE RELATED TO BLUEBERRIES AND LINGONBERRIES

MOST COMMONLY SEEN AT THE THANKSGIVING TABLE, THESE FRUIT CAN BE ENJOYED THROUGHOUT THE YEAR

## Behind the bog...

In its natural habitat, the cranberry plant grows vigorously in acidic sandy bogs, all across the temperate and cooler parts of Northern states in the United States. Cranberry season generally lasts from October until December. The fruit is small, round, red color berry. The berries are indeed containing numerous health benefiting chemical substances that may offer protection from tooth cavities, urinary tract infection, and inflammatory diseases.

Delicious, tart cranberries hold significantly high amounts of phenolic flavonoid phytochemicals. Scientific studies have shown that consumption of berries have potential health benefits against cancer, aging and neurological diseases, inflammation, diabetes, and bacterial infections.

Antioxidant pigments are largely concentrated in berries that feature deep red skin. Discard any wet, mottled berries as they tend to spread the mold to rest of the stock. While fresh, as well as dry berries carry good level of antioxidants, bottled cranberry drinks and cranberry cocktails with added sugars may actually devoid of them. Fresh berries can be stored inside the refrigerator for several days. Sort out any discolored, soft, shriveled or sticky fruits before storing. They have a very short shelf life if kept at room temperature.

### Dried Cranberry Breakfast Mix

- 1 c rolled oats
- 1 c bran
- ½ c chopped pecans
- ½ c chopped almonds
- ½ c shredded cocount
- ½ c chopped dried apricots
- 1 c dried cranberries
- 1 c puffed rice

Combine all ingredients; toss well to combine. Store in airtight container. Serve with milk, yogurt or fresh fruit.

## November: Diabetes Awareness Month, Lifestyle as Prevention

November is National Diabetes Awareness Month. When we discuss awareness, prevention seems to come trotting right alongside. After all, if we want to be aware of the disease then we also want to prevent it for ourselves and our families.

Prevention can come in many forms, these can include regular testing for diabetes, physical activity most days of the week, and eating a mindful and well-balanced diet. So, just living an overall healthy lifestyle, something all of us should be doing daily.

What you eat is just as important as how much you eat. Following healthy portion sizes can be a great way to monitor your intake of carbohydrates, protein and fiber.

An easy way to know how much your eating is by using the plate method. Using a basic 9" plate draw an imaginary line down the middle and across the plate creating four sections.

Fill half of the plate with non-starchy vegetables and fruit (fruit can also be on the side and two servings of vegetables can fill half the plate.

Non-starchy vegetables are lettuce, carrots, broccoli, cauliflower, etc. and starchy vegetables are potatoes, sweet potatoes, corn, peas. In one of the smaller sections put your grains or starchy vegetables such as bread, rice, pasta, potatoes, etc. This is usually 1/3 - 1/2 cup serving.

The last smaller section is for your protein, this can be fish, chicken, lean beef, eggs, beans, etc. About a 3 oz portion per meal is adequate. You can add a serving of dairy on the side as well, focus on low fat dairy products to avoid extra fat in your diet.

You can also apply this plate method when shopping for your food. Shopping can be a very tempting experience with all the bright ads and packaging, aisles full of treats and sweets, and feeling of hunger depending on when you are shopping. When you look at your cart remember the plate method.

Half of your food items should be fruits and non-starchy vegetables. Then a quarter can be lean

proteins and another quarter whole grains and starchy vegetables. An occasional treat is fine too, just watch that the treats are not most of the cart.

Sticking to the outside of the store can be helpful, this is where the fresh foods and lean products tend to be.

First make a loop around the outside of the store to get your fresh product, lean proteins, low fat dairy products and then move to the necessary inside aisles to fill in any last items.

There is no need to venture down every aisle, this can help avoid tempting items all together.

Support can be a big help when you are focusing on your health. Getting help from friends, family and co-workers can mean the difference between achieving and maintaining your goals and throwing them out the window.

Healthy eating is important for everyone, not just people with diabetes or trying to prevent it. Ask your family and friends for support especially when meal planning or at special occasions, the holidays are right around the corner and can be a challenging time when watching your eating habits. Teach your support circle about healthy eating and what you're doing!

While November gives us the opportunity to discuss diabetes and prevention we need to think about preventing and managing diabetes every month.

This means maintaining a healthy diet full of fiber, fruits and vegetables, lean protein, and lower carbohydrate foods. Living an overall healthy lifestyle by participating in regular physical activity, at least 150 minutes per week.

Finally, having regular visits with your health care professionals such as physicians, dietitians, and diabetes nurse, and being checked throughout the year for diabetes.

These are the areas we have control over in our lives, so working to make positive improvements in these areas can lead to successful health overall.

**A Million Reasons to See Broadway Hit Rock n' Roll Musical, Million Dollar Quartet, at North Star Mohican Casino Resort**

October 17, 2018 (Bowler, WI) – Come see Broadway's hit rock n' roll musical inspired by the true story and work of four music legends Elvis Presley, Jerry Lee Lewis, Carl Perkins and Johnny Cash on January 19th! This show celebrates the "Mount Rushmore of Music" and transcends the audience to the days of yesteryear! See and hear it for yourself! Tickets are on sale now! Like all great folklore, there may be a few variations to the story, however, at some point in December of 1956, Carl Perkins and Jerry Lee Lewis gathered to record some music. They were later joined that evening by Elvis Presley and Johnny Cash. This impromptu jam session created music that one newspaper wrote,

"could sell a million!" Shortly after that article, the group was known as The Million Dollar Quartet. The effects of this one-time spontaneous event created a dynamic and lasting mark on musical history, and Million Dollar Quartet is a result. "Million Dollar Quartet is a creative and spectacular display of musical storytelling," said Michael Bonakdar, General Manager of North Star Mohican Casino Resort. "We are thrilled to honor the four artists that inspired this talented traveling show!" **Native American Tourism of Wisconsin**

NATOW is an inter-tribal consortium that was launched as a state wide initiative in 1994 by GLITC (Great Lakes Inter-Tribal Council). The mission of NATOW is to promote tourism featuring Native American heritage and culture. Tourism provides an excellent tactic for Tribes to diversify their economies, while telling the true story concerning their history and culture. Tourism is also one of the ways that Tribes can be self-sufficient and boost their economies. NATOW is comprised of representatives from each Tribe, who converge bi-monthly to discuss its strategic tourism plan. NATOW has grown significantly over the last few years, becoming a recognized force in Wisconsin at gatherings, festivals, and events. All efforts are coordinated by their own Director, Chairperson, and the executive board members who report directly to the GLITC Board of Directors.

Native American Tourism of Wisconsin is made up of 11 sovereign Tribal nations: Bad River Ojibwe, Forest County Potawatomi, Ho Chunk, Lac Courte Oreilles Band of Ojibwe, Lac du Flambeau Band of Lake Superior Chippewa, Menominee Nation, Mole Lake Sokaogan Chippewa, Oneida Nation, Red Cliff Band of Ojibwe, St. Croix Band of Ojibwe, Stockbridge-Munsee Band of Mohicans. Each Tribe is a sovereign nation that abides by its own Constitution.
