Small Business Administration (SBA) Veteran's Business Outreach Centers

<https://www.sba.gov/tools/local-assistance/vboc>

The Veterans Business Outreach Center (VBOC) program is a one-stop-shop for transitioning service members, veterans and military spouses looking to start, purchase, or grow a business. Located nationwide, VBOCs provide transition assistance programs, including Boots to Business and Boots to Business Reboot, as well as business development assistance such as training, counseling and mentoring, and resource referrals.

SBA Office of Veterans Business Development (OVBD)

<https://www.sba.gov/business-guide/grow-your-business/veteran-owned-businesses>

Devoted exclusively to promoting veteran entrepreneurship, the OVBD facilitates the use of all SBA programs by veterans, service-disabled veterans, reservists, active-duty service members, transitioning service members, and their dependents or survivors. SBA programs provide access to capital and preparation for small business opportunities. They can also connect veteran small business owners with federal procurement and commercial supply chains.

SBA Federal Contracting Service-Disabled Veteran-Owned Small Businesses program

<https://www.sba.gov/federal-contracting/contracting-assistance-programs/service-disabled-veteran-owned-small-businesses-program>

The government limits competition for certain contracts to businesses that participate in the Service-Disabled Veteran-Owned Small Business program. Joining the disabled veterans' business program makes your business eligible to compete for the program's set-aside contracts. You can still compete for contract awards under other socio-economic programs you qualify for. The federal government's goal is to award at least three percent of all federal contracting dollars to service-disabled veteran-owned small businesses each year.

Veteran Administration (VA) Vets.gov procurement registration

<https://www.vets.gov/employment/job-seekers/register-your-business/>

If you're a Veteran who owns a small business, you may qualify for advantages when bidding on government contracts—along with access to other resources and support—through the Vets First Verification Program. This program is run by the Office of Small & Disadvantaged Business Utilization (OSDBU). Registering through OSDBU will allow you to work with the VA (all businesses who work with VA must be registered). Find out if you can register your Veteran-owned small business.
