

2020 Great Lakes Summer Fellows Program

A partnership between the Cooperative Institute for Great Lakes Research (CIGLR) and the NOAA Great Lakes Environmental Research Laboratory (GLERL)

Professional training in Great Lakes sciences in a collaborative setting

Conduct cutting-edge research on the Great Lakes' most pressing issues, including:

- Harmful algal blooms Fisheries Climate change
 - Big data management Water levels
 - Invasive species
 Hydrology

\$10,000 stipend

Description:

- 9 full-time 12-week positions
- Located at NOAA Great Lakes Environmental Research Laboratory (Ann Arbor, MI)
- Starts May 18, ends August 7

Eligibility:

- Currently enrolled undergraduate (juniors and seniors preferred) & graduate students
- Post-bachelors or post-masters students within
 12 months of graduation (i.e., May 2019 or after)
- U.S. citizen or a foreign national residing in the U.S. on a current Student Visa

Seeking diverse group of applicants

We strive to increase diversity in STEM disciplines. Students who identify with groups that have been traditionally underrepresented in government and academic workforces are strongly encouraged to apply.

2020 Great Lakes Summer Fellows Program

The Cooperative Institute for Great Lakes Research (CIGLR) announces the 2020 Great Lakes Summer Fellows Program, in partnership with the National Oceanic and Atmospheric Administration (NOAA) <u>Great Lakes Environmental Research Lab (GLERL)</u>. The Great Lakes Summer Fellows Program exposes students to a broad range of disciplines and provides an exciting opportunity for students to conduct research in the Great Lakes region under the mentorship of a CIGLR or GLERL scientist. We seek to use these fellowships to increase diversity in STEM disciplines (science, technology, engineering and math) and strongly encourage applications from students who identify with groups that have been traditionally underrepresented in government and academic workforces.

Description:

- We are offering nine (9) full-time, twelve-week positions located at the NOAA Great Lakes Environmental Research Laboratory (GLERL), 4840 South State Road, Ann Arbor, MI 48108, about 4 miles south of the University of Michigan central campus.
- Fellowships will begin on May 18 and end on August 7.
- Each student will receive a \$10,000 stipend, paid in four installments of \$2,500. The first payment will be made one month in advance of the start date to help with securing housing and other incidentals for relocation to Ann Arbor. Stipend pay dates will be: 4/13/20, 5/11/20, 6/8/20, and 8/10/20.
- Each student will receive financial support for travel to and from Ann Arbor.
- A vehicle will be provided for local travel to/from the work site for students in need of transportation while in Ann Arbor.

Eligibility:

- The program is limited to currently-enrolled undergraduate (juniors and seniors as of Fall 2020) and graduate students (Master's and Ph.D.). We will also consider post-baccalaureate or post-masters students who have graduated within the past 12 months of the fellowship (i.e., May 2019 or after), if the position fits directly within a student's career or academic goals.
- You must be either a U.S. citizen or a foreign national who is residing in the U.S. on a current Student Visa.
- Immediate relatives of any CIGLR or NOAA GLERL employees are not eligible to participate in this program, consistent with NOAA guidelines.

To Apply:

- Visit ciglr.seas.umich.edu/opportunities/student-fellowships/ to complete an online application.
- Deadline: 23 February 2020 at 11:59 PM EST
- Applicants will be notified of their status by 20 March 2020.

For application & more information, visit:
